ANDROID DISPLAYS

DESIGNED FOR PROFESSIONAL **SIGNEDGE** APPLICATIONS

DISPLAY FEATURES

Achieves natural skin tones and colors, enhances brightness and sharpens images with an original noise reduction method.

Two-Way Bluetooth Audio Link not only allows the mobile devices to connect to the display, but the display to connect to other receivers as well.

Dolby Audio delivers louder and richer volume on small speakers to make the audio mix more intelligible. It optimizes audio for your content and equipment.

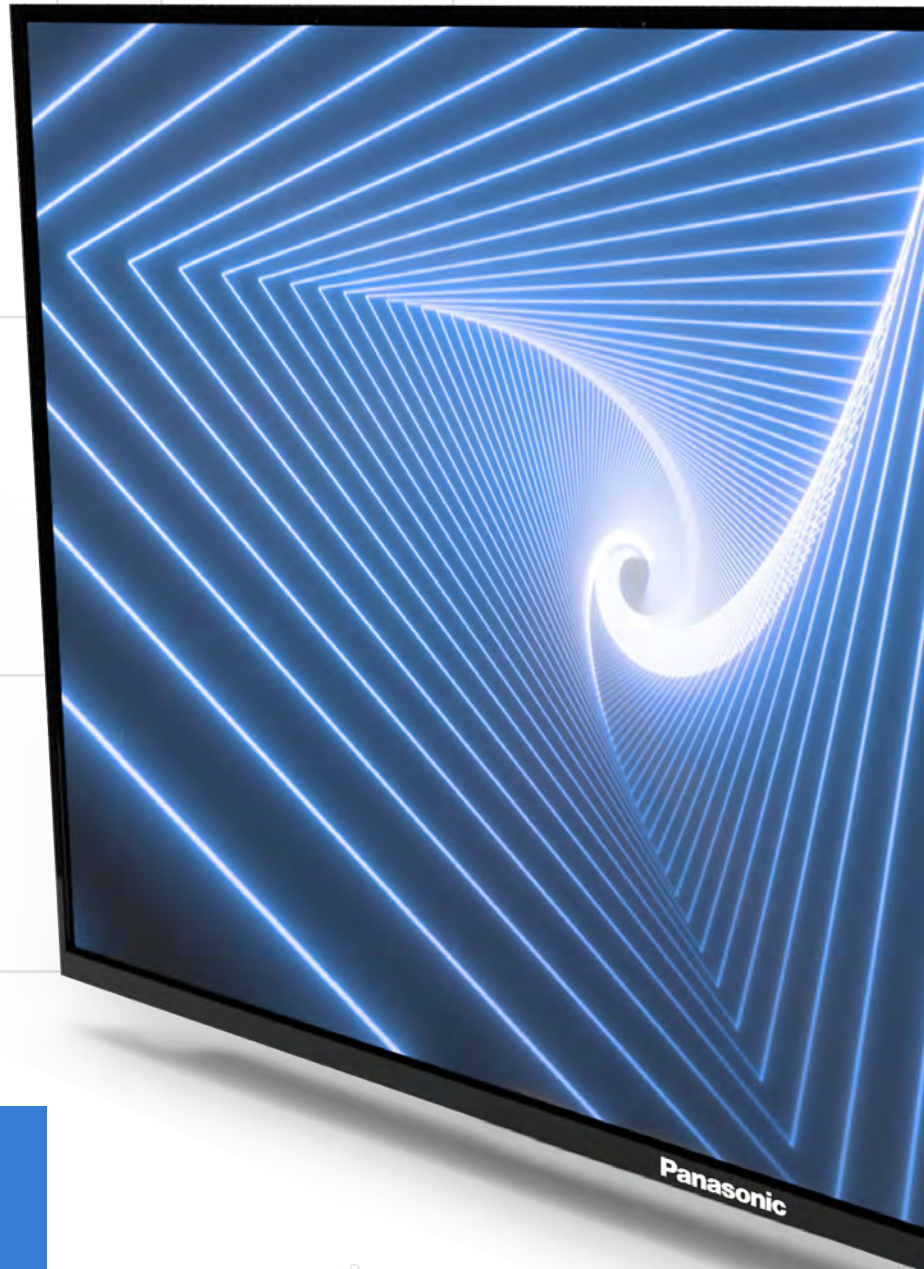

Built-in Google Assistant and Google Playstore allows voice control and options of a wide range of Android applications that can enhance the Unified communications capability of the display.

With Android 11, performance improvements like enhanced memory management and privacy features, like one-time permissions, are introduced to make sure displays work quickly and securely.

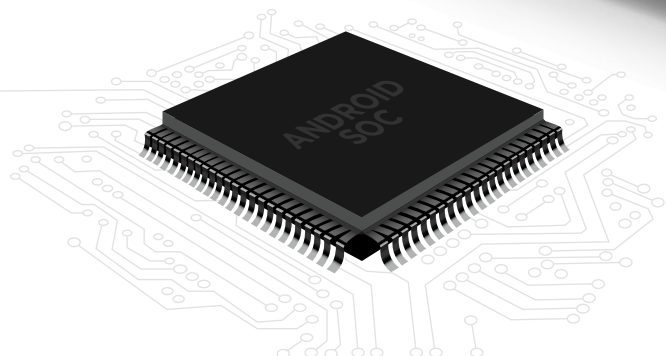

Built-in Chromecast lets you cast your documents and applications from your phone, tablet or laptop right to your TV.

ANDROID SOC

The built-in SOC is powered by Google's Android Platform, the series brings together exceptional smart features and Google-certified built-in assistance tools to offer a superior viewing experience.

Quad-Core CPU | Mali G31 MP2 GPU | 1.5 GB RAM
2.4/5 GHZ Wifi | 8GB Memory | Signage Software*

*Optional Software

DISPLAY FEATURES

HDMI-CEC DEVICE LINKING SUPPORTED

HDMI-CEC compatible devices can be connected to a display via HDMI cable, enabling the basic operation of compatible devices to be controlled by the remote control.

SIMPLE PLUG AND PLAY SOLUTIONS

Displays can be installed anywhere by plugging in the power cord, inserting a USB memory device, and playing your media.

HDR 2K

With 2K HDR, bright tones are made brighter without overexposing. Dark tones are made darker without underexposing.
